

European Union Health Facility in Vietnam

6th floor, 16B Van Cao Street, Lieu Giai Ward, Ba Dinh District, Hanoi

Phone: +84 24 6652 4734/ 6653 6043

The European Union Health Facility (EUHF) has been established by the European Union in March 2015 as a part of the actions agreed with the Government of Vietnam within the framework of the EU Health Sector Policy Support Programme phase 2 (EU- HSPSP 2): Towards Equity and Quality of Health Services in Vietnam.

EPOS Health Management (Germany) is currently looking for the experts to fill in the position of

Obstetrics Expert with experience as a surgeon in an obstetric hospital for the assignment

On reduction of MMR and NMR in Vietnam towards the achievement of the Sustainable Development Goals.

The purpose of the assignment is to produce a **situational analysis** of available resources **and mapping** of available services in selected districts that could later lead to the develop detailed plans to **deploy BEmONC, CEmONC and NCU capability at district level** in selected districts.

Duration of the assignment is 59 working days, starting June October 1, 2018

Main tasks of the officer are as follows:

- **Participate in developing Methodology** for the implementation of the assignment and **first draft of the assessment questionnaires forms and guidelines** to be distributed to be filled by provinces and districts.
- Support and contribute in the organisation of a first **consultation workshop** to explain the questionnaires and guidelines to participants and achieve consensus before distribution of the questionnaires.
- **Distance and in situ support to provincial and district officials** to complete and validate the questionnaires.
- **Contribute to first draft of the assessment report** including methods, instruments, results, analysis and preliminary conclusions, including any factors that may affect the progress of the assignment.
- Participate and contribute to organisation of second **consultation workshop** to discuss with the provinces and districts for the revision of **first draft of the assessment report** and development of detailed plan for each selected district on BEmONC, CEmONC, INCU improvement
- **Contribution to the Final Report with conclusions and recommendations**
- Contribution and support to organization of a final **dissemination workshop in Hanoi** to **share the assessment findings and district plans** to provincial, district leaders and all relevant stakeholders, discuss about solutions for implementation of developed plans

Qualification Requirements

- At least a master degree or Level 1 specialist (which is equivalent to master degree) in obstetrics. PhD will be an advantage
- A minimum of 10 years of clinical experience in obstetric services in Viet Nam in different geographical settings
- Experience in the management of medical services related to mother and child health in Viet Nam
- Experience in the development and implementation of improvement programmes in maternal / neonatal care at hospital and district levels in Vietnam
- Experience in the design and use of questionnaires, databases, data compilation cleaning and analysis for health data
- Full fluency in Vietnamese and English, both written and spoken.

All candidates must be computer literate (in spread-sheets and word processing, preferably in Microsoft Word, Excel and Powerpoint), and be fluent in spoken and written English and Vietnamese.

All interested candidates should send their application in English, including a cover letter indicating the position they are interested in and the motivation for their application, and a detailed CV in electronic form, to EPOS Health Management, at recruitment.vietnam@epos.de by the deadline 6 pm Hanoi time September 21, 2018
